Notes & Terms

- ▶ **GST:** All prices are exclusive of GST. A GST invoice is optional — if required, **18% GST** applies and a valid GST bill is shared.
- ▶ **Server / hosting:** Approximately **₹10,000 per year** towards cloud server & infrastructure, borne by the client.
- ▶ **WhatsApp charges:** Borne by the client, paid directly to the WhatsApp provider (~₹1.20–1.40 per order) — a pass-through cost we do not mark up.
- ▶ **Capacity:** Provisioned to support **up to 25 concurrent users**. Higher concurrent usage requires increased server capacity, at additional client-borne cost.
- ▶ **Handover & training:** Complete source-code handover and weekend **virtual** team training are included; source-code ownership transfers to the client on full and final payment.
- ▶ **Payment terms:** Payments are due against each invoice per the agreed schedule; work commences on receipt of the initial payment.
- ▶ **Scope & change requests:** Covers the modules listed above. New features, integrations or changes beyond this scope are estimated and billed separately.
- ▶ **Support scope:** The 3-month support covers bug fixes, minor updates and priority support — not new feature development (quoted separately).
- ▶ **Timeline & data:** Delivery depends on timely client inputs and approvals. The client owns business-data accuracy and should retain independent copies of critical data.
- ▶ **Warranty & liability:** Software is delivered as agreed; Weblithic's total liability is limited to the fees paid under this quotation, with no liability for indirect or consequential losses.
- ▶ **Confidentiality & cancellation:** Both parties keep each other's information confidential. Amounts paid for completed work are non-refundable.
- ▶ **Validity:** This quotation is valid for **7 days** from the date above; terms are finalised in a mutually signed agreement.
